

## Testing notes

- We have a lot of material to cover during the semester.
- Testing in class takes up too much of our class time.
- After the first test or two, we may be using the services of the Stevens Point Campus Testing Center.
  - I will make an announcement when and if I decide to utilize this service.
  - The location and times change from day to day, so you will have to check with the main office.
  - The room is proctored, and is quiet.
  - You would have one week in which to take a test.
  - I would collect completed tests at the end of each day, then score them as soon as I am able.
