

## ONLINE QUESTIONNAIRE ASSIGNMENT

We will be discussing different types of research in this course. Over the next month, I would like you to answer two separate on-line questionnaires. Go to <https://www.mysurvey.com/> and click on "JOIN US"

Fill out the form on the next page. The company group will then send you, via email, notice to participate in questionnaires.

As an assignment, you will need to fill out **two** separate questionnaires between now and **September 30, 2009**. Once completed, you will write a one page paper detailing the surveys that you completed and how you felt.

- ❑ How did the questions relate to each other? Was there a correlation between the questions?
- ❑ Did you understand what they were asking for in the survey?
- ❑ Were you offended by any questions?
- ❑ Did the questions flow easily?
- ❑ Was there any question that you would have worded differently?
- ❑ What do you think about the prizes that are offered to participate? Do you feel that these are good incentives?
