

## **LIVESTOCK NUTRIENT MANAGEMENT PLAN 2004-2005**

**Mission Statement:** Provide lifelong learning for farmers in proven agricultural practices and emerging technology: emphasizing business management and analysis, livestock management and nutrition, and crop and soils management.

This course will help a farmer develop a nutrient management plan for their farm. The course involves group sessions in September and October. Individual on-farm sessions will be held by appointment. A farmer will learn how to make a nutrient management plan with the help of the instructor. This plan will meet FSA, DNR and Land Conservation Department requirements. This plan will also be certified by a CCA (Certified Crop Advisor).

Class sign-up begins July 1, 2004. This class is incorporated into the Soils class for 2004-2005. Please contact Mike Sabel 715-422-5387 for more details.
